

Supplemental Questions for Master Gardener Application

Completed by: _____
(name)

The following are thought questions and there are many possible answers. Please make brief suggestions as to the problem(s) presented and possible solution(s). You may use whatever resources you choose to answer the questions. Complete and return with your Master Gardener application.

1. My spouse sprayed a systemic insecticide on our vegetable garden to get rid of bugs. After finishing, we noticed that vegetables were not included for use on the label. Can we eat these vegetables?
2. I applied a weed and feed product to my lawn but had poor weed control. What did I do wrong?
3. My Norway pine's inner needles yellowed, turned brown and fell off in late August. Should I have done anything to prevent this?
4. My neighbor's apples are spotted and have internal brown streaks. What was wrong and are they safe to eat?
5. Last fall my roses lost all their leaves except for a few at the shoot tips. What caused the problem and could it have been prevented?

Please list the resources you consulted in order to answer the above questions.
